COURSE ANNOUNCEMENT

See COURSE SCHEDULE (back page) for more details.

Calculator: Required (a graphing calculator): something like a TI-83, TI-86 will do, but not allowed to use “too strong” ones like a TI-89.

Final exam: During the finals week. The date and time will be announced later by the College.

Midterm exams: We will also have three midterm exams, in class.
The dates are Sep 27 (Wed), Oct 25 (Wed), Nov 20 (Mon).

Homework: There will be weekly homework assignments (problems from the textbook), usually due on Mondays. Only a few selected problems will be graded from each set, but it is important that you do a diligent job of handing in the assignments. The exam and quiz problems will resemble the homework problems from the textbook.

Quiz/Blackboard: Participation in Blackboard (http://blackboard.canisius.edu) is required.
Weekly quiz will be conducted through Blackboard (usually on Fridays), as well as some additional information/assignments will be given.
To log-on and use Blackboard, you first need your Canisius NetID.

Grading: Total (700) = HW/Q (200) + Mid (3 × 100) + Final (200).

Attendance/Behavior: Students are expected to attend classes and engage themselves.
Of course, it will matter to your overall grade. When you are in class, please be courteous to others (e.g. turn off your cell phones).
Academic dishonesty/cheating is wrong, and should be avoided.

Make-up Policy: In principle, there will be no make-up exams, especially for the final exam. However, for some valid reason, if you have to miss an exam, please contact me for a special arrangement.

Difficulties: If you have any personal difficulties (learning disabilities, illness, or any emergency), let me know and we will try to make appropriate arrangements.
