COURSE ANNOUNCEMENT

We will cover topics from Chapters 5, 6, 8, 7.
See CLASS SCHEDULE (back page) for more details.

Calculator: Required (Something like TI-83 will work.). Will not be emphasized heavily, but will be encouraged to use in class and in exams.

Final exam: The date and time has been determined by the University, during the finals week. See back page.

Midterm exams: We will also have three midterm exams.
The dates are Feb 12 (Thur), Mar 9 (Tue), Apr 15 (Thur).

Homework: There will be bi-weekly homework assignments (problems from the textbook), usually due on Tuesdays and Thursdays. Only a few selected problems will be graded from each set, but it is important that you do a diligent job of handing in the assignments.

Quiz/Worksheets: On most Wednesdays (but not always), there will be either a short quiz (given in class) or a worksheet (take-home). They will be similar to homework problems.

Grading: Total (700) = HW (100) + Q/WS (100) + Mid (3 × 100) + Final (200).

Make-up Policy: In principle, there will be no make-up exams, especially for the final exam. However, for some valid reason, if you have to miss one of the midterm exams, you may contact me for a special arrangement.

Difficulties: If you have any personal difficulties (learning disabilities, illness or any emergency), let me know and we will try to make appropriate arrangements.
